I inherited the original set of books, but for some reason this one was missing from the collection. Very glad that I could order it here online, and it arrived quickly. My aunt was very excited when I surprised her with a copy too, as she had been searching for a specific recipe from this particular cookbook.

I have been "collecting" this set for the past year...the books are a little difficult to find, but well worth the search. This was part of a Time Life cooking set from around the world. There is a larger hardbound book that matches each of the spiral bound softcover books. The spiral bound books contain all the recipes, while the hardbound books contain both regional history and recipes. If you love to cook this is a wonderful addition to your cookbook set!

If you want to get the complete recipes that this set offers, buy this coil bound booklet instead of the

hardback book, for it only has a few. The hardback book is good about reading about the culture though. But if recipes are what you want, order this.

Replacing my much soiled copy

As another reviewer has pointed out, this is NOT a pretty picture book of wonderful presentations. No, this is a pretty down to earth work which gets into the nitty-gritty of cooking. Do not look for conversion tables or all of those "you can substituted this for that" little notes. No, you actually had better know your way around a kitchen. Not that the book is not well written; far from it! The directions are quite precise, measurements exact, and this little work is filled with cultural observations and bits of information, that while may not come up in everyday conversation, are never the less nice to know. We have here a 112 page oddly sized, spiral bound book that gives us a good representation of Russian dishes. Chebureki, Manty, Uzbek Palov, Kapsarullid (lot of these cabbage dishes), Sult, Bitki s Zapravkoi Gorchichnoi, Chuchkella. Gozinakh, Khalva...what, you don't read Russian? Well fear not. Each dish is accompanied by an English translation and written description of the dish. While at first glance some of these dishes may seem rather exotic, upon closer examination it becomes quite apparent that the sneaky Russians have infiltrated even our kitchens and the reader will find many dishes and offerings quite familiar. Let's face it, Lokshyna, Zapechena, if you squint your eyes, becomes Egg Noodle and Spinach Casserole very quickly. On the other hand, Braised Veal with Caviar Sauce, Jellied Veal, Skewered Pork with Pomegranate Syrup and Ground Lamb Sausage probably did not show up at your last church pot-luck. All in all this is an intriguing little book. We have tried several of the recipes and all have turned out quite well. This is one of a series of ethnic cooking that Time-Life published first in 1969 and updated in 1977. They are a good addition to any kitchen arsenal and make for some interesting eating and reading. I must give this a four star recommendation even though there are no pictures. Actually, I am not overly fond of pictures as my dishes never turn out looking anything like what you see in the fancy and slick new books of today. If you can find a set of these books, including this one, grab it...you will not be sorry. Don Blankenship The Ozarks

Originally packed with the Time-Life large-format hardcover book of the same title, this companion book was designed to be used in the kitchen. It contains most of the recipes of the larger volume, and has some of its own. Neat little book if you don't want to get grease on the prettier hardcover. recipes are clear and easy to use.
