Customer Reviews

I highly recommend this if you are serious about learning the language -- or one of the other languages in the series. The series is expensive since it must be ordered-shipped from Europe.

-MINUS ONE STAR Caveat: The Arabic version uses not only transliteration but one of the WORST transliteration schemes ever devised (e.g., treating d-D, h-H, t-T, ain-hemza, th-TH, s-S as one letter each). (I took off an additional star on the Arabic review). BUT, I typed them into the free Pauker flashcards (SourceForge.Net) and then learn(ed) the most common 2000 words in the language -- along with my OTHER studies in the language this really speeds up comprehension. An very nearly Excellent Resource
