## Customer Reviews

Charles Chesshire has designed gardens in the United States and Britain, and is a consultant to Sudeley Castle Gardens in Gloucestershire, England. He has studied in Japan and is building his own Japanese tea garden in his home in Ludlow, Shropshire. He has helped to introduce a number of new varieties of clematis from Japan as curator of the National Collection of Clematis held in Burford House Gardens, Worcestershire. He lectures widely and gives garden tours around the west of Britain.

Beautiful book, chock full of ideas. I love the Asia esthetic.

This book is exactly what I wanted - a practical, easy-to-understand guide to creating these Japanese gardens. The photos are very helpful and the plant lists also. I'm sure there are more in-depth books about these gardens, but this is a good straight-forward book for those who aren't aspiring to be Japanese garden masters. I believe the text and images focus more on the basic elements and that's a great way to offer clarity to the novice.

Beware, as noted on the end flap: Previously published as part of a larger volume, "A Practical

Guide to Japanese Gardening."

This book really isn't meet my needs.
