Customer Reviews

Book by Rosalind Wates

Plenty of ideas in book. Lacks enough instruction.

I just started doing mosaics and read others reviews about this book. I got it and it is very inspiring and even exceeded my expectations.

I bought this book for my daughter (8th grader) who is really getting into mosaic art after completing a project she did in art class last spring. This book has great ideas for patterns, and shows each pattern in several different color combinations, which is great because it shows her that she doesn't just have to copy the pattern.

Lots of ideas to create! Good color photos, nice book.

Great book! Lots of information!

Love it

I bought the book as a beginner looking for the basics of how to get started. While the book has that info, its emphasis is on specific animal and plant design, borders, symbols, etc. Heavy on the animals. While this isn't the main book I consult in mosaic-making (I like Leslie Dierk's book), I will definitely keep this as a reference.

Very informative and well written book
