Daido Moriyama: In Color: Now, And Never Again

Synopsis

The most recent projects by Daido Moriyama, one of the leading figures in contemporary Japanese photography along with Nobuyoshi Araki, Yasumasa Morimura, and Shomei Tomatsu.

Considered one of the great masters of contemporary Japanese photography, Daido Moriyama is always on the road, a lone traveler whose black-and-white images recount visions and worlds hidden just beneath the surface of reality. This book contains 250 photographs taken over the last five years. A constant flow of images that is often frenetic or suddenly suspended, following the rhythm of an unfettered, restless life spent traveling the roads of the world.

Book Information

Hardcover: 480 pages

Publisher: Skira; Bilingual edition (May 24, 2016)

Language: English

ISBN-10: 8857222268

Customer Reviews

"Daido Moriyama's photography is made solely by instinct, raw need, decisions dictated by the gut, not the head. In his images there is no logic, there is no thought, only a need to satisfy. Looking at his pictures is like taking on the visual perception of a wild animal that roams around in a frenetic search for food."-DOMUS MAGAZINE

Daido Moriyama (born 1938) is one of the most important living photographers and photo-book makers. Filippo Maggia is currently researcher in the Photography Department of the Royal College of Art. Since 2010, he has taught photographic documentation at the Accademia di Belle Arti in Catania (Sicily).

The book itself is well bound, seems like it will hold up for quite a while, despite the massive size of the book (and it is massive!). The pages are glossy and the images are printed brilliantly, and the pages fold out so you can see the entire image. This is a very good purchase and was worth the cost. I would recommend it to any fan of Daido Moriyama's work.

Easily my favorite book devoted to his color work I've seen so far! It's almost more of a rare snapshot diary of the many B&W locations and images that fans might recognize among his more iconic images. Yet I don't mean to suggest that these color images are just sketches and have no impact on their own. This might be his coolest book in terms of dumping you right onto the streets and back alleyways of his vagabond wandering bar crawls across throughout Japan during the early to mid 1970's! As always; it's stark, immediate, and recorded on shoddy materials, yet the intimacy one feels on each page is like getting hold of a very personal and unique time machine. And each shot is printed LARGE and full bleed on the page like you could almost walk into it! Get it NOW before it's just another Japanese \$\$\$\$\$\$ collectable!

I know the black and white photographs of Daido Moriyama that I like a lot. I had great expectations to see the color ones. It is a great deception. They are repetitives and without any new message.
