Simply Learn Hebrew! How To Learn The Hebrew Alphabet! How To Speak Hebrew! Learn To Read Hebrew Sentences! Ideal For Teaching Hebrew! How To Study Hebrew!

Synopsis

OVER 1.1 MILLION VIEWS ON YOUTUBE! Based on my YouTube video series: I taught the Hebrew alphabet, How to read Hebrew words, and learning to read Hebrew. Now I have written a book on how to learn Hebrew for Kindle.
 "Your lessons are such a blessing to us that desire to learn Hebrew I pray you will continue sharing so we can continue to learn." "Wow..Amazing lesson! This instructor makes it soooo understandable!" "This is a great start, what a confidence boost when you can read the Hebrew at the end." "How can anyone not love this? He is so clear. Thank you, Sir!"
How to Study Hebrew Language: Learn the Hebrew Alphabet: Often people teach Hebrew to themselves. They need a book which is effective at teaching Hebrew. You will learn the Hebrew alphabet slowly and simply. There is no memorization. Just reading and speaking Hebrew letters out loud. You will gradually learn how pronounce Hebrew words.
Reading Hebrew words: As you learn to read Hebrew letters in this book, you will start sounding out letter groups. Each step is so simple, you will find you are
 "Simply Reading Hebrew!"
Reading Hebrew sentences: You will soon read Hebrew from the Tanach with a unique learning program. There is no Hebrew vocabulary memorization. You will learn key Hebrew words by repetition without memorization.
Building Hebrew vocabulary: In your Hebrew study, building Hebrew vocabulary comes from reading Hebrew with understanding. As I teach you Hebrew, this will be done in a unique and simple way. Thank you for considering this book. Soon you will be able to read
 "Shalom" in Hebrew.
Hebrew Translation In weeks you will learn how to translate Hebrew. It will not be a lot, but you will read the first 5 verses of Genesis if you do your work. I'm working on the next book which will take you further.
 Learning Hebrew doesn't stop with the alef bet. It continues to reading the Torah as if it were English. You won't get that far in this book, but you will be going in the right direction. There is nothing easy about learning Hebrew. But it can be simple if you just give me 20 minutes a day.

Customer Reviews

As one who has always been fascinated by Hebrew and its seemingly undecipherable writing system, I had tried many books over the years and found them too uninteresting. Not so with this book by Gary Ghaller entitled "Simply Learn Hebrew". It is presented in a way that any beginner will find it easy to progress and the references to expand on the knowledge gained by the text presented are most valuable. Well done. Great learning tool.

Fascinating Lessons, expertly built up, well explained, nice price. Four stars, instead of five, for two reasons:- linked videos will not play from Kindle Fire HDX; the author does mention they should be watched on a PC. inconvenient nonetheless.- again, regarding using the book on the Kindle Fire HDX, the Hebrew characters appear small, as a single illustration. They zoom as such, but grainy, and without accompanying text. The book renders good on Kindle Paperwhite 2, but the Hebrew characters could be sharper still. The author gives only some pronunciation answer keys in the beginning, then omits them. pity. He does announce that in the first part of the book. Be aware, that this course will teach to read and pronounce Hebrew without understanding the meaning. I enjoy the lessons a lot, the recommendations above would make it perfect! Thanks to the author for making this available, five stars for opening up this new world to us. The links to explanatory character background are appreciated.

It's been 54 years since I was able to read Hebrew. I am basically starting to read the language from point zero. I am going a little slower than the 14 days that the author says we should take but I am learning... The vowels are giving me a bit of trouble but by repetition I am learning how they work too. I think that by adhering to my pace I will be able to read the language and then I can start working on the vocabulary so as to actually learn Hebrew. My big objection to learning Hebrew 50+

years ago was that we were only learning how to read sounds which made no sense to us. I am a bit wiser now and know what I want to do and this book is teaching me how. I wish the rest of the video's would be complete and put online as promised by the author. In the later chapters when I pronounce something I do not know if I am correct or not and if my pronunciation is wrong then I am not learning anything. I would have given it a higher rating had the video's been finished but in the present state it's like a book with the last 4 chapters being omitted.

I was enjoying learning through this book, which references to videos on the author's blog, after few videos they haven't been updated and book seems to be incomplete because of the lack of videos.

I am a fairly smart person, have studied other languages, have a native Hebrew speaker for a boyfriend, and I was STILL confused by this book. By page 6 I was completely lost, and resorted to sending screen shots to my boyfriend and asking for help. He had to point out that some critical pieces of information were left out, making following along almost impossible. I'm going to Israel in 4 months and need something more effective than this. Going to buy something else.

Not as thorough or well-explained as I would want.

This is exactly what I wanted . Easy to follow. It would seem very hard to learn but it wasn't. Highly recommend this course and the author.

I've rented books from the library and score of online content, and nothing beat out this one for simplicity. What made me really buy this book was his videos that are posted online that I had been watching. Those videos took my ten year "TRY" of learning Hebrew to a practically overnight success. Without them I would still be on the 7th letter of the aleph bet.
