Ugh, I need to learn my lesson and stop buying coloring books without inside images. Cover art was the cutest picture. I just really didn't like the images. Reminds me of the book "Coloring Books For Adults Hippo Mandalas (Animals & Mandalas )" that I also bought and returned. These two books tried to do the popular style of putting images inside the animal, but they failed. A lot of the inside images are way too small and impractical to color. Returning.

Horrible, there is nothing to color in this book, the pictures are all filled with black lines, don't waste

your money, I sent mine back for a refund, it was that bad. And I only paid \$4

I have not colored in this book. The pictures in this book are so cute.

This was a gift. We were not impressed. The quality is pretty subpar. There are very few good pictures to actually color in. There is too much black ink on the pictures that should have been printed out lighter and less thick. It takes away from things you, as the person coloring, would want to color inside. I guess this would be fine for a young kid but as an adult that wants to color for stress this seems a little chintzy and poorly put together. It's worth around three dollars so if you see it for that price go for it but if it's more expensive...pass on it.
