## **Customer Reviews**

I did not realize this book was in large print because I did not see this in the information description. At least it's easy to read!

I didn't think I would get into these stories as much as my 12 year old son did, but I was proven wrong! I was totally immersed in the story and the action, even though I have (had) no interest in martial arts, sword fighting, war stories etc. The stories are so well written and the plot is engaging, so even you don't have a secret desire to be a ninja or samurai you will enjoy the story and the character development etc. My son and his classmates gobbled this series up - Great for the reluctant reader who may not have found his/her genre yet.

This book is a easy read fun and for teens and up. I think anyone will enjoy it not just me.

My 12 year old said it was a great book and he would definitely recommend

Loved the ease of reading this book...descriptive without becoming mundane. Characters are easy to relate to and like. Highly recommend to adult and teen readers.

I was getting bored with the series, this got me into interested again, I like the ending its like a new beginning

This is the best book I've ever read along with all if the others in the series!!!! I will never like another book anymore than this one!

I bought this book as a reward for my teenage son. He loves to read and he enjoys Chris Bradford's works. I was very happy with the product and he will get to enjoy it when he brings home some better grades!
