Customer Reviews

As a long-time fan of Ms Sparks & her brilliant novels, I was beyond thrilled to get this one in my hands and the wait was well worth it! Kerrelyn has a unique way of weaving a story that I've never seen duplicated by another author.. She pulls you in, thread by thread, and before you know it, you're addicted and putting down the book is impossible! The world building was extraordinary & the characters were multi-faceted & intriguing. I can't wait to get my hands on the next book in this new series! ~Vicki Rose ~ Platinum Book Reviews

Luciana spent her younger years on the Isle of Moon hidden away because of her birth. When a stranger comes to the convent, she's forced to step outside her comfort zone and face a harsh world. Luckily, she's got a few secrets of her own and a handsome hero by her side. Leo is hated by the king because he won't die, no matter how many assassins are sent after him. He's got his own secrets and power. When he and Luciana come together, sparks fly. I love Kerrelyn Sparks's other book series. They are set in a modern time with twists of magic and determined men. This book appears to be set in a past country, much like the middle ages, where women are only good for two things- babies and sex. And while this book certainly had magic and sexy heroes, I disliked the world it existed in. Again, strong kings could control the world and women had to lie there and take it. Good thing Luciana had a wonderful man who valued her. The secondary characters like Brody were fun and I hope they eventually get their own tale.

Wow I love this book from the title which is just hilarious to the actual plot. I do wish that the last 20% or so hadn't been so rushed, it wasn't bad but it wasn't the same depth as the rest of the book. I would definitely recommend this book. It was a good romance and a gripping read.

An intriguing read. Magical places and new people. Love the story line and can't wait for the next book in the series.

Another Sparks Success! Can't wait to read more of this series!

How to Tame a Beast in Seven Days was bloody awesome. I was picked up from my world and dragged into another, where good fights evil, love conquers all and what you see isn't what you get. We are treated to a paranormal fantasy romance that captures your attention from the first page. The settings, dress and hierarchy made it feel like a historical romance which was something that I loved. The characters are made up of ordinary people mixed in

with the extraordinary. I loved stepping into this world and I honestly didn't want to leave. Lucky for me this is just the start. I have attempted to write this review for more than an hour. It's just not working how I want it to. I want you to nod your head and say - ooh, I love that too (in my favourite reads). I want you to think - I love historical romance, maybe a paranormal fantasy wouldn't be so bad after all. I want you to read my mind and see what I saw, felt what I felt and lived what I lived...from the very first page. Let's just say I was BUZZING!!! I loved meeting the characters in the story. The strength and courage they showed living with abilities they were born with but punished for having. Seeing their vulnerability when they are ostracised and shunned because they are different. Amazed at their ability to forgive the uninformed and ignorant. Frustrated when one too many turned their back on the characters and made them feel hated, unlovable and disgusting. The storyline was exciting and full of action and adventure. There was never a time that it dragged or felt unnecessary. I was dying to get back to it every time life got in the way and I had to shut down my kindle. As the pages turned I wanted and needed to know more. The love story and intimacy is slow burning but completely understandable. When that first connection comes it is pure magic. I needed it as much as the characters did. My heart settled and my smile grew. Even Beasts deserve happiness. Even the unwanted can feel needed. How to Tame a Beast in Seven Days is definitely going to my best of the best shelf and I can't wait for more in the series. I know this review is a bit of a bloody mess, but I'm sure you've worked out that I really, really loved it.

i really enjoyed the first book of the new series. the characters were awesome and very intriguing. the plot shocked me. I wasn't expecting the excitement at Tedric's castle. can't wait for book 2.

I gave this book a 5 star rating because it deserved it. Kerrelyn Sparks is one of my favorite authors. Her Love at Stakes series introduced me to the paranormal romance genre and I fell in love. I knew I was going to love this new series and I did. The characters are well thought out and you feel like you really know them. The chemistry between Leo and Luciana is sizzling! I wish I could find that kind of love. Amazing job Mrs. Sparks. I can't wait for the next book in the series.
