Double-Sided Magic (Legacy Series Book 1)

Synopsis

I am Levy Michaels. Once my kind were the hunters—now we are the hunted. Supernaturals are out of the closet but I have to stay hidden because of the type of magic I possess. I—am a Legacy. It sounds like the title should come with reverence, a trust fund, or at the very least a cool backstory—but instead it comes with a death sentence. I have to hide in plain sight and pretend to be just human. I—am pretty good at it. I live a simple and somewhat normal life, and I work in antique acquisitions. Everything—s going fine until a dangerous and enchanted dagger that was once in my possession is stolen. I didn—t think things could get any worse until I woke up next to a dead shifter, fae, and mage, without any memory of the past twenty-four hours. Considered guilty of murder by most of the magical community and humans, I must work with Gareth, the sexy and dangerous leader of the Supernatural Guild. If he—s as good as rumored, it—s only a matter of time until he discovers the truth about me—then being found guilty of murder is the least of my worries.

Customer Reviews

I really enjoyed this story! The characters and world building were great. The only thing that kind of bugged me was the use of the word "faes" as a plural for fae. I know it's nitpicky and it's a fantasy world where the writer can do whatever she wants, but it still bugs me. I'll definitely be checking out the rest of the series!

This was an incredibly original paranormal novel. The main character was strong, but not without faults, and she seemed very. . . Human. Relatable. The world building could use a tiny bit of work, but I found it unique and interesting. The writing kept me captivated. I will definitely be reading on, and recommend others to read the series as well.

Levy is a funny and snarky character that I really enjoyed getting to know. Double-Sided Magic is a fun read! As usual, Mckenzie puts a new spin on urban fantasy, with a unique type of shifter and protagonist. No spoilers...but her back story is very interesting. I can't wait for the next one!

this is an interesting concept and a good twist on most of the supernatural stories out there. Levy is accused of murder Gareth doesn't quite believe she did it but he is convinced that she is hiding something and he wants to find out what, however Levy knows that him finding out could get her killed anyway.

It started off with a bang and never let up. I really enjoyed the main character, her boss, her roommate and (of course) sexy possible love interest Gareth. Mackenzie Hunter created an imaginative alternate universe that was neither too silly nor too convoluted (sometimes it's an issue in Urban Fantasy). It didn't exactly end on a cliffhanger but the closing scene was enough for me to yearn for a follow up just to see what will happen next!

Not a bad start to a new paranormal series. This is bit different than other paranormal series I've read which is refreshing. Has all the elements needed to become a series you'll want to follow. Tough heroine with a snark attitude, mystery, suspense, a little sexual tension that has potential to develop into much more. Looking forward to the next in the series.

The writing is great. The story very captivating and not your usual obvious twist. I like the fact that you're not sure what will happen next, whom to trust, who is on Levy's side or what she should do.

The ending is also not your usual style, definitely leaves the right amount of suspense to make you want to read the next book. I would definitely recommend it for anyone looking for something a little different yet interesting and exciting

I couldn't stop turning the page. I enjoyed the banter, suspense and thrill of every minute. Definitely buying book 2
