Customer Reviews

This book was only 99 cents and I still think its a waste of money. Everything is spelled wrong and the person who wrote the book is probably 10 years old. The information was nothing special and this book was very crappy!

Please proof your work before you attempt to sell it to others! Also consider being a bit less

deceptive in your title, I imagine most people would not consider this the "Ultimate Guide" to anything...

I wish somebody would write a novel about the fallout games, I'm a huge fan of the fallout series. This 11 page booklet, manages to tell the story of the fallout games.

I was very clue less about the world around when playing fallout but this definitely explains everything that makes it SPECIAL
