## Customer Reviews

I bought this for my daughter who is just beginning in high school. I wanted to get her prepared early for what she could expect in Chemistry and science. I have always enjoyed chemistry and I could look through this and the flashcards all day. My daughter who does not have a strong interest in science or chemistry has even enjoyed learning new information. I cannot report on if this has enough information to prepare yourself for the actual regents chemistry exam. But it will definitely prepare your child for high school chemistry. The information is presented in a language that is easy to understand and the flashcard system makes for an easy game out of studying. I am excited about how prepared my daughter has already become and much more prepared she will be when the time comes to take her exams. I received this product at a discounted rate in exchange for an honest review.

These Regents chemistry flash cards were tremendously helpful! I studied them by myself first reading the information multiple times and then I had my sister test me as well. Each card contains the most pertinent information you'll need to pass your exam. Nice and concise, this flash card study system made it easy to study and memorize information that can normally be challenging. I highly recommend these flash cards to anyone studying for their exam!! received these flash cards at a discount in exchange for my honest and unbiased review.
