Clear To The Last

Synopsis

Zoey Everest has it sorted. She has a successful career, a vibrant lifestyle and is about to get married. But then, tragedy strikes and Zoey has nothing left except grief. Moving back to Fenson, swapping city lights for quaint countryside, Zoey has to pick up the pieces. Starting again seems impossible, and the support of her closest friend brings with it an unexpected complication. A memory is unlocked of a forgotten childhood. A new face grabs her attention. A passion for horse riding is reignited. Zoey is provided a second chance at happiness, but it isn't going to be easy, and nothing in life is guaranteed. If a horse can fix a broken heart, if she can learn to love again, and if a friendship can survive anything, then perhaps Zoey will make it safely home, clear to the last.

Customer Reviews

Hazel Beecroft's protagonists cross over and interact throughout her books, yet each character and story can stand on its own. The tragedies that shape lives form the infrastructure of her novels,

wtapped in hope and survival. Anyone who has lost a beloved-person or creature- will relate to her stories. I look forward to more.This Kindle edition had many typos, but I doubt they were the fault of this creative and literate author.Wonderful novel!

A reader gets accustomed to characters in a series. Of course, there will always be new ones, but Hazel has made an art of throwing that comfort zone out the window. And now that I've figured that out, it's fun to try to figure out when, where, and which of my old friends will pop up.Can't wait for the next one, Hazel. By the way, I bet I'm one of (if not THE) oldest of your fans. Decades past the demographic you say you're aiming for.

I was really sorry to read the last page! Not going to give away the plot but suffice it to say here is a tale that swings us readers from one end of the emotional spectrum to the other, with many a snag to hang up on while enroute.Wonderful read. Looking forward to more stories by this author.

Really enjoyable read. Different type of horsey book than I normally read. The characters were all great and really worked well together.

good read

A fantastic read! Well-written, believable characters, engaging plot. I was hooked from the start and couldn't rest until I knew what happened! Not only is this a great book for horse lovers, but also one somebody without any riding experience could read and still enjoy and understand, because the character's equestrian journey is written in such a way that it appeals to both audiences. Everyday riders will love the spot on details, from vettings to leaving a party to go bring the horses in, while the story is also a great introduction to the realities of owning a horse for those that aren't.And true to life, the main character isn't the best rider. She is an amateur who just wants to enjoy her horse, which resonates with so many of us and yet isn't often found in horsey fiction.I couldn't read the last chapter fast enough, desperate to know what happened, because I can truly say I no idea until the last page what the ending would be.Starting over, horses, a hint of romance, and one very exuberant little dog. Highly recommend!
