My 3.5 year old LOVES Dinosaur Train on PBS. We save the most recent episodes on our TiVo and had to permanently save the 4 episodes that make up the Dinosaurs A to Z (Tiny's big idea!). My son has learned and remembered SO many dinosaur names from this show. He impresses everyone with his talk of the Pachycephalosaurus, for example. There is an adorable dinosaur A-Z song where they sing all the dino's names. It goes rather quickly, and with these long Dino names can be hard for the little ones to sing. As soon as I saw this book, I knew he had to have it. He now flips through it and follows the TV story at the same time. I've also seen him flipping through the book and singing the song to himself. Now, his 19 month old brother also reaches for this book often. Highly recommend as a companion to the show.

If you have a dinosaur train lover or and dinosaur lover it's the perfect book. Has all info on all the different dinosaurs. Reminds me of what Dr. Scott would say on the show along with the dinosaur a

to z song.

My son loves all things dinosaur, and Dinosaur Train is no exception. At 7 years old, he can recognize and say almost all of the names of the dinosaurs in this book. We actually saw several we had never heard of before! It's thick and padded too, so it's easy to find on the bookshelf, and will last a long time compared to regular paper books.

My son was SO EXCITED to get this book! He absolutely loves Dinosaur Train and dinosaurs. This book also teaches adults so much about dinosaurs. And then we discovered the "Dinosaurs A to Z" song. Loved! We highly recommend this book!

My son is a huge fan of Dinosaur Train and anything dinosaur. He loves this book, we read it at least once a day. I like that it gives several facts without seeming to overwhelming. It is also a sturdy book. I also like that it gives the phonetic spelling to help pronounce the dinosaurs.

My 4 year old is obsessed with Dinosaur Train. He loves this book and can tell me what each of the dinosaurs is and what they ate based on the pictures in the book. It's very sturdy and colorful. My 8 year old also likes to read the information in the book. My 4 year old loves the book and I'm glad I purchased it.

My 2 year old son absolutely loves Dinosaur train and loves this book just as much. He flips through it every single night and the wife and I read it to him very often. The quality is great, nice thick soft padded book. The look on his face when we opened the box and he saw this book was priceless. Love it.

Great book! My 4 year old nephew loves it. It's easy for him to understand even when English is not his first language.
