Ok I realize I spent under \$7 for this but in 2017 I should be able to buy an adult coloring book with images that are not fuzzy. Most, if not all of the images in this book are blurry/fuzzy and there are many repeat images as well. Luckily at the same time I bought the Harley Quinn and the Suicide Squad adult coloring book on here too and for under \$11 that book is fantastic. Save your money spend literally a few dollars more and get a different book. After all, Harley should look her best ;)

Its a compilation of drawings but the many styles is very appealing. Its got a great variety of images with different types styles and genres

Huge Harley fan.. love the images only complaint is it's not single sided pages. So you either need to make copies or buy another book to color all pictures

Many different styles of Harley even with her among other famous Marvel characters. Looks great.

it's a gift, but looks good

Love this book so many different images of Harley to color and make copies of.

This is a lot of fun to color. I'm looking for more coloring books like this, I would like to get more of them.

Live it. It's kind of a knock off of some of the comic pictures but it's still good cause I've gotten half way on coloring ur and it suites me just fine.
