The Palmistry Bible: The Definitive Guide To Hand Reading

Synopsis

Since ancient times, seers have used palm reading to predict the future. But as you'll discover in this illuminating volume, it's also a wonderful technique for self-exploration and personal growth. The shape of your hand--its whorls, fingerprints, lines, mounts, and other geographic features--reveal untold truths about your personality and destiny. Using the extraordinarily detailed images as a guide, find out how to identify and interpret those features. Do you have the potential for a passionate romance? Will you have children? Are you a realist or a dreamer? The answers are right in the palms of your hands.

Customer Reviews

Good if you are doing traditional palmistry, but the modern version (no astrology), now often distinguished by the name chiology, is very different and this won't really apply to it.

Easy to understand the layout, good drawings and illustrations, great for the beginner in human anatomy and Chinese medicine. Not about divination of the future, but more about understanding your self and what limitations you face from within yourself.

Great reference book! Easy to navigate through but still chock full of information. Great illustrations and pictures for further clarification regarding details of hands, lines, finger shapes, fingerprints, etc. I have many palmistry books and this is definitely one of my favorites. Highly recommended for anyone interested in learning about palmistry in an easy to digest manner.

I've been a serious student of cheiromancy for some 40 years now. I've read just about every book that's come down the pike. This book isn't very good and it certainly is no "Bible." If marketed as a beginners guide, it would be more appropriate. This book covers only the basic variations of lines you will find in the palm with too many broad generalizations. What I think is really misleading is that this book is supposed to be designed for someone who wants to read palms for a living! I would run from anyone who charged me if this book was the only source of their knowledge.

Lots of good, basic info as is with all of the 'Bible' books. I have not delved into palmistry yet, but this is a great starting point!

Very easy to follow and to apply the lessons right away.

Awesome!

Thank you
