Received the book. The book was in very good shape. No issues at all.

This product came in time, in perfect conditions, and is very useful for my daughter. I did good research before ordering it and the pricing on .com was considerably better than all others. Highly recommended.

purchased similar items else where and it didn't even reach so far. But this seller able to deliver with in 5 days of purchase. Excellent service and book condition is also just like brand new.

it was boring to read, i remember, and doesn't explain too well. teacher did a lot of explaining that year. but i guess it was ok, because my class all passed to middle school. anyway, i would reccomend gettin' something else. and these people's website stinks. you can't peek inside the book. y'know, just get somethin' else.
