Customer Reviews

This is a beautiful picture book, with lots of lovely shots of vintage jewelry. If that's what you're looking for then look no further. However if you want detail or descriptions or history or really, much text beyond the approximate value, then you should consider something a little more comprehensive, like :Collecting Costume Jewelry 101: The Basics of Starting, Building & Upgrading as this book may not have as many pretty photos (although it has plenty) but it has a wealth of information about the designers and the companies who made so much of this beautiful,

wearable art.

As a total beginner in collecting vintage costume jewelry I found this book interesting and helpful, it stimulated my desire to learn more.

Great Book !!!

A great book if you are working with high-end jewelry.

If you're into jewelry with glass gems or the art deco look, this is an excellent resource. The text gives a good review of jewelry in the 1920s - 1940s, but on the level of an interested collector, not for a research paper. The photos are excellent and the pieces nicely categorized by type.

Love this book, includes some hard to find items. Great pictures and pretty accurate pricing too. I highly recommend this for any lover of Art Deco era jewelry.

This book is so informative, Lots of pictures and great information. Just what I was looking for, for my research.

Nice collection of pictures. There was not enough written information as far as identifying and pricing vintage jewelry. Had to get another book from another author who gave a more detailed explanation regarding prices and identification.
