Will It Skillet?: 53 Irresistible And Unexpected Recipes To Make In A Cast-Iron Skillet

Synopsis

Discover a new world of cast-iron cooking. From Dan Shumski, who last applied his out-of-the-box food-loving sensibility to *Will It Waffle?*, here are 53 surprising, delicious, and ingenious recipes for the cast-iron skillet. Savor the simplicity of Toast with Olive Oil and Tomato, because you just can't achieve that perfect oil-toasted crust in a toaster. For Homemade Corn Tortillas, no special equipment required—use the pan to flatten and cook them. (Then serve your tortillas with Single-Skillet Carnitas or Charred Tomato Salsa—or make Chilaquiles.) Take popcorn to another level with clarified butter. Enjoy a Spinach and Feta Dip that stays warm from the residual heat of the pan. Plus pastas that come together in one skillet—no separate boiling required; perfectly charred roasted vegetables; beautiful breads and pizzas; and luscious desserts from a giant chocolate chip cookie to the sophisticated Layered Crepe Torte with Dark Chocolate and Raspberry Jam. Includes detailed information on buying, seasoning, and caring for your cast-iron skillet—and turning it into a nonstick kitchen workhorse. *—*

Book Information

Series: Will It...?

Paperback: 216 pages

Customer Reviews

Daniel Shumski, author of *Will It Waffle?*, is a writer and editor who has hunted ramen in Tokyo for the *Washington Post* and tracked down ice cream in Buenos Aires for the *Los Angeles Times*. He lives in Montreal, where his French is still a work in progress. *—*

I'm a devoted fan of "Will It Waffle?," and I was thrilled to discover that Daniel Shumski's newest work is every bit as great as its predecessor! Fantastic recipes, witty stories and mouth-watering photos make this not only a useful cookbook for the kitchen, but also a quick and fun read. And perfect timing, as the food blogs and real-food sites I follow always seem to be recommending the use of a cast-iron skillet, and I desperately needed some inspiration and recipes! I love how the author puts together ingredients that I wouldn't think to combine, and (of course) to use the skillet in ways I wouldn't have imagined. I'm excited to share this with my family and friends, just like I did with "Will It Waffle?" Love it!

I love reading cookbooks and when I saw one just for the cast iron skillet, I thought this one could be fun. I have already made one of the recipes and I know I will be making a lot more. It is nice that it's all about the cast iron and there are recipes you could never think could be made in a skillet. For example, can you believe you can make popcorn with clarified butter? Well, you can!

This book is filled with many really good recipes. Great for people wanting to cook more with cast iron.

Will come in useful during camping.

As the previous reviewer said, "Will It Skillet?" has all the hallmarks of the wonderful "Will It Waffle?" It's clever, practical without being boring, accessible but still surprising. There are unexpected variations on things you thought you knew (like mayonnaise and Parmesan spread on the OUTSIDE of grilled cheese, for a cheesy, crunchy exterior; or pasta and sauce cooked together in the same pan, at the same time) and more ambitious things (like a delicious Japanese cabbage pancake with bacon embedded in it; and a rustic fruit galette, baked in the skillet). It's a perfect book for anyone with just a couple of pans -- a bachelor kitchen, a student kitchen -- or for anyone whose workhorse pan is their cast-iron skillet. (Also, there's an detailed section on caring for cast iron which corrects the widespread misconception that cast iron is some sort of delicate flower.) You could cook for weeks with just this cookbook and I plan to.

Looking at that photo on the cover made me drool. These are tasty recipes, explained well. A lot of creative uses for a skillet here, although I think the best is chicken pot pie. Just cannot go wrong with that. Good holiday gift idea.

Ok but expected more.

SKILLET does not mean CAST IRON
