The book was torn from its bind whenever I received it

Great text! This textbook was required for a class and you will definitely read the ENTIRE book! I purchased this book instead of renting it and good thing. A great resource to carry with you especially if you have a student with EBD.

Though legible, it fell out of its binding as soon as I started using it. Strict test deadlines for my online class prevented me from getting one in better condition .

Condition of the book (used) was rated good, I didnt notice any difference to a brand new one, great!

Came quicker than expected. Pleased.

This is good one thanks

I am very happy with my purchase! This person is excellent to do business with. Everything was perfect (shipping, price, etc)

Great book!
