Nasty Galaxy

Synopsis

From Sophia Amoruso, the #1 New York Times bestselling author of *#GIRLBOSS*, a lushly illustrated embodiment of the collective spirit of the Nasty Gal brand, Sophia's own personal brand, and girlbosses everywhere, with a foreword by Courtney Love. Warning: this is not a style book. It's not about how to mix prints or about how to leave yours on everything you touch. Highly graphic and visual, it's filled with illustrations, photos and short essays, *Nasty Galaxy* is part scrapbook, part inspo-journey, with moments of frivolity scattered throughout. Tactical and entertaining, envelope-pushing and conventional, surprising and refreshingly straightforward, *Nasty Galaxy* is a dive into Sophia's philosophies on work, relationships, balance, friendships, and more. It is a celebration of her roots in vintage clothing, punk attitude, fringe characters, and a don't-give-a-fuck thought leadership. *Nasty Galaxy* is Amoruso's newest life bible, approaching style, music, philosophy, and advice in the same way *#GIRLBOSS* approached business unconventionally. Oversized and in full color, this is the newest, coolest, must-have accessory.

Sophia Amoruso is the founder and CEO of Girlboss Media, which connects women to explore success on their own terms through content, community, and experiences. Her 2014 New York Times bestseller #GIRLBOSS, which chronicled her early life as well as her experience as the CEO and founder of fashion empire Nasty Gal, was adapted into a scripted TV series that premiered on

Netflix in 2017. Sophia is also the author of Nasty Galaxy and the forthcoming Girlboss Workbook, out on October 24, 2017.

It's a beautifully designed book. It's a mix of everything that inspires Sophia & Nasty Gal: musicians, albums, actresses, models, & girl bosses. I must say I bought this book as soon as it came out because of my love for #GirlBoss. I was obsessed with it & read it religiously. Finished it in a few days. Last night I began to read Nasty Galaxy & got half way through it. There's much less reading material is why, but also because I was trying to see if it was going to get better. It's a coffee table book. Fun to pick up & browse through, but not the entrepreneur's bible like #Girlboss was. So if #Girlboss part 2 is what you wanted (like me), then you might be a little disappointed. Either way I still have fun reading it & seeing the visual candy. It's great to see where Sophia drew her inspiration from as a creative, and to get more of a visual on her girl boss features in the book. I would still recommend this book.

inspiring and beautiful to page through. I almost wanted to rip out all the pages and put it all over my walls!!

Bought this book for a girl I was seeing. We spent a night flipping through it and it was a great wing man. Best money I ever spent 10/10 would Nasty again.

I, thought book would be, more Fashion photos of the Nasty Gal brand, put a mixed book of many things and has some photos, but not many on Fashion

Sent it back, sorry, . Nice looking cover and photo, so yeah, I guess it would look nice sitting on your coffee table, but you probably don't want to read the thing. Totally uninspired, as if someone had to throw together a book to fill some last minute contractual obligation, and assumed they could include anything and count on the graphic designer to make it all work. Well, it doesn't work. A disgusting story on having a "foamy" adult blowout in your pants, a tip on "how to poop, silently" coupled with some lame business advice (don't think these tips are going to help you land that dream job), as well as brief introductions to female rockers you already know about, and some astrological nonsense in case you are totally devoid of any spirituality and will settle for anything...well, that's pretty much it. And I wanted to like it, I really did, as I like visually appealing books that are just fun to look at.

This book is absolutely beautiful! As well as reading it, I'm definitely going to be using this for a great interior design piece in an upcoming project. Thanks so much! A+++++

Sophia is a huge inspiration on so many levels! I love this book, its images and all of the messages/interviews inside. Another perfect work done by the #GirlBoss!

As an artist this book is entertaining and inspirational. From the funny stories, cool graphics, and quotes. I truly enjoy staring at and reading the book.
