Customer Reviews

"So, what's my verdict on Earworms language lessons? As the Dutch say, 'heel goed!' (Very good!)" --Wired, praise for the series

Earworms MBT is an accelerated learning technique that takes a new and innovative approach to language learning. Based on the science behind catchy songs that become stuck in one's head (the auditory cortex), Earworms works by pairing melodic music with soft-spoken foreign words, phrases, and their translations. The result is an incredibly effective method for learning conversational foreign languages by simply listening. Earworms MBT is produced by Berlitz, one of the world's premier

foreign-language organizations. Daniel Billings is an Earworms MBT language instructor. He can be heard in all three volumes of Earworms' Rapid Spanish (Latin American). Vivian AtienzaBeatriz Toscano

These were just great -- engaging conversations and well spoken. I ended up being much more confident about day to day spoken Spanish. This was very easy to listen to while driving -- each lesson was small enough to fit into handling a car. I had 20 minutes each way, and the language just sunk in. I would love a more advanced version of these -- but there doesn't seem to be one.

I love to listen to this while I drive. I have picked up so many words and phrases so quickly!

This product is stated Latin American version, however it is identical to the one I already purchased titled Catalan. So I wasted money on something I already have.

Easy to listen to and easy to retain due to the way the language is presented.

Great service...good product..

These are the best the best for introduction to any language. Too bad they don't have them for all languages

Very catchy. Perfect for tourist. I was hoping for more conversational.

Tracks will not download into iTunes. I know there are workarounds, but I did not pay for this hassle.
