Customer Reviews

No other book on the Rhodesian war has illustrated the extend of operations such as this one. As a Rhodesian involved and privy to sensitive information at the time , this book has opened my eyes to the full extent and demands of those last four years.A must read for those still wanting to fill in the gaps or get a broader perspective of what was actually going down .I personally now understand far better that we could win the battles but not the war !! I find this book has brought a sort of closure for me on the resultant political outcomes.

Great to put names and places, to events I knew about but was not privy to. Thoroughly enjoyed catching up with things and the aftermath of events I was involved in
