Customer Reviews

I got this for my animal science class at UC Davis.The chapters are fairly comprehensive, but they seem to have been ordered somewhat haphazardly. If you can get past that, then this is fine.

college class- as described

Just got the textbook. They didn’t have any kind of wrapping to protect the book, so the top corners are a little bent. Other than that, it’s good.

Really wonderful textbook. And I was very satisfied with the date of arrival, as it arrived right when you predicted it would.

I am very happy with this package everyone did a good job.

Helpful for my animal science class this past semester

Required book for nephews college. Just what the teacher described

It was exactly what I wanted, I had no complications!
