Davis Advantage For Medical-Surgical Nursing: Making Connections To Practice

Synopsis

Davis Advantage for Medical-Surgical Nursing www.DavisAdvantage.com Instant Access: 978-0-8036-6037-3 Access Card: 978-0-8036-6038-0 2017 Winner of The International Awards for Nursing Excellence Recipient of the Capstone International Nursing Award Awarded by The Honor Society of Nursing, Sigma Theta Tau International (STTI) Learn - Apply - Assess Davis Advantage Med-Surg is a comprehensive curriculum solution that creates a seamless learning experience across the Learn-Apply-Assess continuum. It combines an innovative text, Medical-Surgical Nursing: Making Connections to Practice, with two online programs, Personalized Learning Plans and Davis Edge for Med-Surg. Together, they create an immersive, multimedia experience that tracks each student's progress and assesses their knowledge until they have mastered the concepts and are ready to apply them in class, clinical, and practice. **LEARN** The Textbook Medical-Surgical Nursing: Making Connections to Practice Janice Hoffman, PhD, RN, ANEF, Associate Dean, Academic Affairs, University of Missouri Sinclair School of Nursing, Columbia, MO Nancy Sullivan, DNP, RN, Assistant Professor/Simulations Director, Acute and Chronic Care, Johns Hopkins University School of Nursing This student-focused, award-winning text connects the concepts students are learning in class to the real world in which they will practice. A consistent, streamlined organization and a wealth of pedagogical features promote critical thinking and clinical decision making by emphasizing the patient-centered role of the nurse and the hows and whys of clinical presentation and treatment plans for their patients. **APPLY** Personalized Online Learning Plans Personalized Learning Plans offer multiple paths to learning success. Students are assessed on their comprehension of key topics and then are given a plan to work through based on their strengths and weaknesses. Interactive case studies, animations and dynamic activities engage students and bring the concepts to life to help drive mastery. **ASSESS** Personalized Online Quizzing Davis Edge Med-Surg Davis Edge Med-Surg is the adaptive quizzing platform that uses NCLEX®-style questions for assessment and remediation. Its interactive, question-based format provides the practice students need to master course content and improve their scores on classroom exams through a series of personalized quizzes based on each student's performance. A special code in the front of the book unlocks Personalized Learning Plan and Davis Edge for students, including an interactive ebook version of the text. See what instructors are saying... "Davis Advantage was easy to access, with pertinent information. Having students prep before class is essential to learning ... [Davis Advantage is] concise and easy to read without going through paragraphs to obtain the information needed to understand the nursing process for a particular disease. Plus, rationales are

included for improved understanding! Students want to know what is necessary to know. A clear, consistent format is helpful for them.â€¢-â€¢ Suzanne Carlson, RN, MSN, Instructor at Southwestern Community Collegeâ€¢-â€¢“What I loved about Davis Advantage was the online supportive learning. The short video was packed with valuable information that appealed to the visual learner. The Q&A was great to validate key concepts; then there was the Personalized Teaching Plans for faculty that were an excellent source of an alternative classroom strategy. Loved the set-up!â€¢-â€¢ Frances Rice-Farrand DNP, APRN, CNS, CNE,â€¢ Instructor at California State Universityâ€¢-â€¢“I like the focus on evaluation of nursing care, which is overlooked in many texts.â€¢-â€¢ Anne Hartman MSN, RN, Instructor Mount Mercy Universityâ€¢-â€¢“Students learn in different ways and just a text may not be enough. The animated mini-lecture was exceptionally goodâ€¢-â€¢ the short video conveys the concepts quickly. The Personalized Learning Plan can help struggling students get difficult concepts.â€¢- Susan Renda, DNP, ANP-BC, CDE, FNAP, Instructor at John HopkinsAlso Available:Diseases and Disorders : A Nursing Therapeutics Manual,â€¢ 5th Editionâ€¢ Looking to bundle your text with an EHR? Customer Reviews

Huge book and there are SO many typos and incorrect information in this book (ex: this book says that cations are negatively charged ions like chloride and anions are positively charged ions like Mg, Ca, K. Come on guys that's like High school chemistry right there. They should fire their editor!) Also the davis advantage program that comes with the book has many many incorrect answers and

inconsistencies.

book would have been five stars but when i opened the book the pages were upside down and the front was in the back. not a deal breaker but still annoying.

It's perfect. Thank you!

As expected. In new condition.

This book is full of flagrant errors that are completely inexcusable. If you are an educator looking to use this book or a student who is about to be forced to buy this book and the Davis Advantage program for 200+ dollars DON'T. I am honestly so upset with the poor quality of this textbook, the obvious lack of review and editing that went into it, and a "studying" program that is not effective or helpful. Thinking about actually calling the publishers and asking for retribution. This book is truly awful.
