The American Academy of Pediatrics is an organization of 66,000 primary care pediatricians, pediatric medical subspecialists and pediatric surgical specialists dedicated to the health, safety and well-being of infants, children, adolescents and young adults. The AAP is the largest pediatric publisher in the world, with a diverse list of resources that includes essential clinical and practice management titles and award-winning books for parents.

Yes, the print is tiny on this card, but I appreciate that its's the exact same flow chart and info that's included in the most recent revision of the NRP textbook. It fits in a pocket for easy review and reinforcement of the info.

I saw the warnings and thought people just didn't want to admit it was time for readers. As a joke I took this to the clinical portion of my certification. You can't read the card and forget it if you have any adrenaline, no way. Complete waste of money and already thrown out.

print is sooooo small, can barely read it.

Money wasted....can't even read the dang thing the print is too small.

Good eyes only. This print is very tiny.

Wish it was larger but adequate

Too small
