Customer Reviews

An asset to all role players and DM's unless you are a strict WoTC person. Also great because you can also buy this with the PDF which WoTC is too greedy to offer.

Given as a gift, well appreciated.

All of the races are based off pre-existing creatures in Dungeons and Dragons; only slightly retooled

from the way they appear as monsters. The book is tiny and flimsy, easily damaged in transit. The content is only moderately original, the rules portions or only slightly modified from other places they appear. This was a rather hasty try at capitalizing on the lack of available content. I would avoid it and wait for a better title.

Came in factory perfect condition. Very informative about the additional features in book.

Its okay

A gift

Awesome start point for new character build

Only 28 pages with 6 new backgrounds and 10 new races are not worth the \$20 price tag. While the limited content and artwork is cool, you are better off saving your money and searching the internet for some homebrew rules. If it were priced at \$5 I would have given it 5 stars.
