Writing Erotica Made Simple: Fifty Shades Words

Synopsis

Think you can write the next Fifty Shades? Maybe you can. Writing books requires many skills of the writer. In fact, writing a book, especially writing erotica or writing a novel, is going to mean that you have to become more authentically "you" than you have ever been. Book writing, particularly writing fiction, demands your genuine emotional engagement with the characters and the action in the story. Otherwise, your writing won't captivate your reader. To do that, the very first thing you are going to need is words. Lots of them. But not just any words. The right words. The ones that are going to evoke powerful emotions in your readers. The ones that make them feel sensual and sexual. The ones that can bring us to our knees, to that special place inside ourselves where how you feel is what matters. Nothing else. Where being master of your own domain is the last thing on your mind. Where "I" instead "we" surrender to your senses sounds like the best thing ever. Where giving in to pleasure seems like a victory, not a defeat. See what I mean? Writing Erotica Made Simple: Fifty Shades Words gives you that power over your readers.
