Washington On Foot, Fifth Edition: 24 Walking Tours And Maps Of Washington, DC, Old Town Alexandria, And Takoma Park

Synopsis

The best way to see a city is on foot. The perennial favorite Washington on Foot has been completely revised and updated to offer 24 walking tours of Washington's neighborhoods. Familiar monuments and museums are all here, side-by-side with lesser-known historic sites and storied residential neighborhoods. Washington on Foot offers history, culture, architecture, urban planning, and more. It's the complete city in a tidy package and the only "outdoor" Washington guidebook needed. Ideal not only for visitors but for locals who truly want to get to know their city. The updated fifth edition of this essential guide features user-friendly maps, architectural illustrations, historical and culture information, and much more.

An index would be a great improvement. This book contains 24 walks and they are described in detail. But the book lacks an index. That is a major oversight. For example, say you want to see the Frederic Delano House (FDR's uncle). But you don't know anything more than the name of the house. It would be almost impossible to find it, unless you get lucky paging through the book and happened upon page 152. Or, if you already knew that it was in the Kalorama neighborhood and went on that particular walk. Without that luck or prior knowledge, you would never locate it. And this is a problem. I will now try to buy a walking DC book that has an index.

Nice walks.....would like to add the walk along the lake from MLK memorial to FDR memorial and on to the Jefferson is filthy with trash, mud/water on the trail and low hanging branches making the walk less than pleasurable.....a bit of a warning in the book would have been nice.

Good set of tours for walking the city. Did two on a recent weekend visit. Tours would be easy to combine into longer tours. Found details for building interiors and hints on what to see very helpful and interesting.

I LOVE this book. It makes sensible walking trips around DC. Instead of aimlessly walking around the areas. The walking maps have points along the way to explain what you can expect of your journey. I can not wait to accomplish them all.

We live in the DC area and this is a great book to decide what to do on weekends. There are places we have never visited mostly because we just didn't think about them. When we have visitors we just hand them the book so they can plan out their day.

As a person never been to that city yet, the book offers time saving tips to help plan out our trip to get to the places most interesting to us.

Very easy to follow the " walks" The maps are well marked and the routes are short enough for all to enjoy. I'm glad I bought the book.

WONDERFUL!!! Thank you :o)
