Grade 8 Up •Harrington promises to reveal the most powerful law in the universe that teens can then use to "create the life of their dreams." He calls it the "law of attraction." He goes on to promote believing in oneself and following one's passions as a way to find fame and fortune. Thinking positive thoughts is all well and good, but when the author writes that optimistic thinking will clear up pimples or that avoiding news coverage about current events (because it will only attract bad thoughts) will keep you healthy and on the right track, it puts the credibility of this self-help guide in doubt. Then Harrington writes that whatever happens to you is a result of what you think about. "Victims of tragedy didn't ask for their fate (and they totally didn't deserve it). They

probably didn't even know they were capable of attracting stuff. But still, there's an attraction. And that's because the law of attraction operates whether you know about it or not. People who don't know THE SECRET are attracting by default." This is cruel advice to give to an adolescent. If a 13-year-old who is being abused reads this, will he think that the abuse is his fault because he attracted it? What about a 17-year-old whose boyfriend hits her? Did she attract the violence? This is a philosophy of blaming the victims, placing the onus for bad things happening in their lives squarely on them.â€ •Geri Diorio, The Ridgefield Library, CT Copyright © Reed Business Information, a division of Reed Elsevier Inc. I know the original book well an this one is the best for teens. I loved it myself before I gave it to my grand children.

I bought this book for my daughter. She definitely connected with the stories that she read throughout the book. This book really helped her understand gratitude and the law of attraction. Great book! My daughter is 13 by the way!

This is uplifting to young teens experiencing a new chapter in life. I bought it for my step daughter who is entering high school in August and dealing with some life changing issues.

Must read for teens.

great book. my daughter loved it

I sent this to my nephew and bet him he wouldn't read it and do what it said. He took the bet and as

turned his life around. It's still a work in progress but his life is getting better and better each day.

I'm a Guidance Counselor. I love the message behind The Secret. I bought this book for a couple of my selected Middle School Students to read. It seems like an easy way for a younger student to get the message about The Secret since the original book, The Secret, is written more for adults. It is a quick read for my better students.

Very interesting book! Great for kids!
