Chemistry: An Introduction To General, Organic, And Biological Chemistry (12th Edition) - Standalone Book

Synopsis

For one-semester courses in General, Organic, and Biological Chemistry. Show the importance of chemistry in the real world. Chemistry: An Introduction to General, Organic, and Biological Chemistry, Twelfth Edition is the ideal resource for today's allied health students. Assuming no prior knowledge of chemistry, author Karen Timberlake engages students through her friendly presentation style and reveals connections between the structure and behavior of matter and its role in health and the environment. With a renewed focus on problem-solving skills, the Twelfth Edition encourages active learning through the new, interactive Pearson eText enhanced with media within MasteringChemistry. New Interactive Videos, Sample Calculations, Problem Solving in Allied Health, Tutorials, and Dynamic Study Modules bring chemistry to life and walk students through different approaches to problem solving, providing remediation where needed. This program provides a better teaching and learning experience for you and your students. It will help you to:

- Personalize learning with MasteringChemistry®: This online homework, tutorial, and assessment program helps students master core concepts and problem-solving skills, thus freeing up time in the classroom for instructors to focus on complex topics.
- Show the relevance of chemistry through real-world examples: Activities and applications throughout the program couple chemistry concepts with health and environmental career applications to help students understand why course content matters.
- Foster development of problem-solving skills: The program introduces a variety of clear problem-solving strategies early in the text that are reinforced through Allied Health Tutorials in MasteringChemistry and revisited when needed.
- Help students visualize and understand concepts: The text's engaging visual features, including macro-to-micro illustrations, a rich photographic program, and concept maps, help students understand chemistry by seeing chemistry.

Note: You are purchasing a standalone product; MasteringChemistry does not come packaged with this content. If you would like to purchase both the physical text and MasteringChemistry search for ISBN-10: 0321907140 / ISBN-13: 9780321907141. That package includes ISBN-10: 0321908449 / ISBN-13: 9780321908445 and ISBN-10: 0321909240 / ISBN-13: 9780321909244. MasteringChemistry is not a self-paced technology and should only be purchased when required by an instructor.

Book Information

Hardcover: 744 pages

Publisher: Pearson; 12 edition (January 11, 2014)

Language: English

ISBN-10: 0321908449

ISBN-13: 978-0321908445

Product Dimensions: 8.7 x 1.2 x 10.7 inches

Shipping Weight: 3.4 pounds (View shipping rates and policies)

Average Customer Review: 4.2 out of 5 stars 383 customer reviews

Best Sellers Rank: #1,511 in Books (See Top 100 in Books) #10 in [Books > Science & Math > Chemistry > General & Reference](#) #12 in [Books > Textbooks > Science & Mathematics > Chemistry](#)

Customer Reviews

Karen Timberlake is Professor Emerita of chemistry at Los Angeles Valley College, where she taught chemistry for allied health and preparatory chemistry for 36 years. She received her bachelor's degree in chemistry from the University of Washington and her master's degree in biochemistry from the University of California at Los Angeles. Professor Timberlake has been writing chemistry textbooks for 35 years. During that time, her name has become associated with the strategic use of pedagogical tools that promote student success in chemistry and the application of chemistry to real-life situations. More than one million students have learned chemistry using texts, laboratory manuals, and study guides written by Karen Timberlake. In addition to *Basic Chemistry, Fourth Edition*, she is also the author of *General, Organic, and Biological Chemistry: Structures of Life, Fourth Edition*, and *Chemistry: An Introduction to General, Organic, and Biological Chemistry, Eleventh Edition* with the accompanying Study Guide, Selected Solutions Manual, Laboratory Manual, and Essential Laboratory Manual. Professor Timberlake belongs to numerous science and educational organizations including the American Chemical Society (ACS) and the National Science Teachers Association (NSTA). She was the Western Regional Winner of Excellence in College Chemistry Teaching Award given by the Chemical Manufacturers Association. In 2004, she received the McGuffey Award in Physical Sciences from the Text and Academic Authors Association for her textbook *Chemistry: An Introduction to General, Organic, and Biological Chemistry*, eighth edition, which has demonstrated excellence over time. In 2006, she received the Textbook excellence award for the first edition of *Basic Chemistry*. She has participated in education grants for science teaching including the Los Angeles Collaborative for Teaching Excellence (LACTE) and a Title III grant at her college. She speaks at conferences and educational meetings on the use of student-centered teaching methods

in chemistry to promote learning success of students. ã ã

Going through the study checks and questions and problems for every chapter has helped me tremendously to keep a high A in my Chem 105 class. I wish there were answers to the even problems as well to check myself.

great deal! I read, highlighted, and wrote on this book more than on any other textbook I ever had. It was in great conditions when I got it (now it looks like a kindergarten book) and I would only recommend you to buy it if your professor is using the same version or the next one because it is the same thing except for the cover and pages numbers.

It arrived in a timely matter, and was exactly like the product which was featured. The cover makes chemistry not seem so terrifying!

I had to have this book for my Chemistry class. This seller shipped item fast, and received book in just a few days, and was very impressed, because I have bought other items off this site and it take a long time to receive it. It was great to receive the fast delivery, also the condition of the book was exactly in the condition stated, it was like new, no damage at all to book, no writing or no highlighting or anything in the book, and it was for a great price only 4.50 plus shipping, cant beat that at all. The only problem I had with this item was it didn't have the mastering chemistry access code with it, and I have to have it for my class as well, and to be a new book never used, I thought it should be included, but I not complaining cause of the great deal I got, so I can buy what I need cause of the extra money I saved on this item. I recommend anyone purchasing from this seller, cause the honesty means a lot. Thanks for the fast shipping and the new condition book, for such a great price.

This is a great chemistry book. It explains everthing in detail. I guarantee if you read the book along with your professors lecture, you WILL get an A or B in the class!The book was in good condition. I was very happy with my product.

Painful. Had trouble getting thru the required readings in advance of classes. Not that book is bad per se, just that it's a heavy read. Other class members using same book found it very helpful. Different learning styles I suppose.

A

Got an " A " in subject!
