Customer Reviews

Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

The book came in excellent condition, the music is easy to read and understand and it's perfect for me(24) and my sister(25) who are starting to re-learn viola. We played in elementary school and know our notes but nothing too advanced. This book is written great for those who are still in the beginning/intermediate stage of learning.What a great buy for an even better price!

OK, I love the 90s and sheet music(which I slowly learn to play on keyboard), so I saw this at a store and thought it had a good list of songs, aside from the lack of grunge acts, but there was more to the decade than just that. This also only goes as far as 1995(since that was the year it was released).The intro to the book seemed kind of snotty about the decade, so that set me back a little. However, the song choices were really good, which is the most important part. Each song was printed very neatly and is very seldom confusing, at least for the beginner. This version is more of an intermediate book, but they do have easy-play versions.Overall, a very good book of music.

My daughter wanted a song book with the songs of her times. She instead got a song book of the 1890s. This, to say the least, was very unfortunate and demonstrates the problems which .Com must avoid - if credibility is to be maintained. Buyers must not be duped into buying unwanted material in this way.
