# Beginners Guide To Electric Guitar: Gear, Technique, And Tons Of Riffs, Book & CD

## Synopsis

Beginner's Guide to Electric Guitar is all you need to start playing electric guitar. With an easy-to-understand and down-to-earth tone, this book gets to the important stuff first and doesn't bog you down with all the details. Learn all about the different types of electric guitars, amplifiers, and effects, and learn how to play like Led Zeppelin, The White Stripes, Black Sabbath, Pink Floyd, Green Day, Metallica, Nirvana, Rage Against the Machine, Jimi Hendrix, AC/DC, Alice in Chains, and more. To keep things simple, the music examples are written in TAB only and are designed to get you playing quickly---from riffs on a single string to power chords, pentatonic scales, and tunes in drop-D tuning. The accompanying CD features a full band to play along with.

## Book Information

Paperback: 48 pages

Publisher: Alfred Music; Pap/Com edition (January 1, 2010)

## Customer Reviews

I started playing Guitar Sophomore Year, this book was a big help. If I'm having trouble, I can look back in the book for help. Good for beginners!

I got this for my 10 year old son who has been playing for 4 months. Compared to the lessons he has gotten thus far from his teacher, it covers too little in a simplistic manner. A better book is Intro to Rock Guitar from the same publisher.
