INFO IS GREAT,BLACK AND WHITE PHOTOS INSIDE AND NOT VERY GOOD ONES

Very practical and helpful suggestions! In planning a shade garden, I have referred to it constantly. One of the best gardening books that I have found.

This was purchased for a friend and she was very happy with it.

Great for gardeners who find themselves dealing with garden spaces in partial or mostly shade. Author has engaging writing style, so it's fun to read at the same time gaining professional information.

no photos, very dry reading, boring

I heard Kerry Ann speak last weekend and I learned a TON. I've been reading her books this week and they are equally helpful for me. I'm not a new gardener but always have so much more to learn. I'll be getting all her books! And this book does have photos.

I have been an active gardener for about 10 years. I absolutely LOVED this book -- great resource, very helpful, not overwhelming, and very practical. This will be a treasured resource book for me for many years. Highly recommend it!! Liz Riordan, Hampton Falls, NH

Kerry never fails to be as informative as they come. You can carry it with you to the garden centers and be well informed on the go. Love her in person and print.
