Customer Reviews

Leslie Pina is the head of the department on Interior Design at Ursuline College in Ohio. This is her sixth book on twentieth century glass and pottery.

I am quite surprised to see that there are not more reviews on this fabulous book. Not only is it beautiful and chock full of fabulous photos and estimated values, but it seems to be the only solid reference for Georges Briard and his equally talented peers. Expect to find nearly every pattern that Georges Briard ever designed and also some wonderful photos and information on: Higgins, Sasha Brastoff, Marc Bellaire, and even a few photos towards the back for Couroc, Fred Press (one of my

faves), Ned Harris, Gabor, Gay Fad, etc...I probably refer to this book every other day! A must have for the mid century collector and especially for the fan of Briard and his designs. Thank you, Leslie Pina, for putting this book together!

This book is a must have for the collector of fine glasswares or as a reference guide. I was taught by Leslie Pina in college and she was a wonderful professor and now is a wonderful author as well. Very concise and descriptive and provided me with a greater knowledge of glassware from the 50's and 60's. Very good investment.

I was thrilled with this book. Lots of detail. Good pictures for a book of it's age. I would recommend this to any vintage collector or seller.

I am a mid century enthusiast and this book is a dream come true... the bio on Georges (was fascinating. THe pictures are beautiful ... good to know I am not the only one who appreciates June Cleever's serve ware!!!!
