High/Low Handbook: Best Books And Web Sites For Reluctant Teen Readers, 4th Edition

Synopsis

Finding well-written and engaging material for teens with substandard reading ability can be a challenge. This handbook is designed to help, describing more than 500 of the best new titles for reluctant teen readers and serving as a wonderful readers' advisory and collection development tool. The book is completely new and reorganized since its previous edition and is divided into two major sections. The first offers a core collection of fiction and nonfiction high/low titles, organized into broad topical areas that appeal to teens, such as careers, exploration, sports, disasters, and teen cultures. The second part presents mainstream YA books and magazines that can be used to build and supplement the core collection. Web sites and graphic novels have been included in addition to the totally new selection of titles. Grades 6-12

A ready reference for teachers, tutors, and librarians working with students who have poor reading skills and need materials that will "induce a reluctant reader to venture into a book." The first section, "High/Low Books and Web Sites: A Core Collection," contains book titles and URLs in subject categories such as fiction, subdivided by genre; biography and memoirs; health and fitness; history; science; and sports. Each entry includes reading level, interest level, and Accelerated Reader or Scholastic Counts indication, followed by content description. There is no indication of how the reading levels were determined. Many of the titles are from small or lesser-known publishers. The

well-chosen Web sites will appeal to teens and are often links from long-standing organizations such as National Geographic, Discovery, and PBS. Part two, "Young Adult Materials for the Reluctant Reader," lists more recognizable fiction and nonfiction titles of interest to most teens, regardless of reading ability. A section of magazine titles gives a description and helpful ordering information. The appendixes consist of a publishers' list and "Resources on the Web," which includes hoax sites, Web quests, and key pals. There are plenty of up-to-date entries, all of the Web sites are new to this edition, and graphic novels have been added.
