Customer Reviews

"Finally, a book for fathers of children with Attention Deficit Disorder! Not only do the authors do a terrific job of answering questions about ADD (including those we dads don't like to ask), but they understand the special hurdles that the father of a child with ADD must overcome."- Harold Meyer, The ADD Resource Center, New York City."

"Voices" is a must read for the frustrated parent of an ADHD child....regardless of gender! We search for the right combination of medication and TLC only to face further disappointments and setbacks. This book is a compilation of experience from the real experts....fathers of ADHD sons. I gained so much more perspective about my son's ADHD and how it effects him. It's so easy to forget the somewhat hidden part of the "D"eficit and expect them to hurry up and "get it" so they can act "normal." "Voices" is a great wake-up call to remind us once again that as parents of ADHD kids....the greatest amount of change will likely have to occur in US....not in our child. Along with the heartfelt commentary of ADHD fathers the authors have presented some good, sound advice on communication technique and behavior modification.
