Like humans dogs are also be treated well and they should also absorb as much nutrients as possible. Dogs should also have healthy body in order for their organs to function well. It is true that many dog owners today prefer the commercially available dog foods, because they are conveniently be bought in the stores nationwide. But, since our dogs help us in many ways at home, why not make some efforts of making their foods organically and naturally. This book has a lot of dog food recipes that we can prepare for our dogs. It also contains the right foods to be given to our dogs and what are those that are not healthy for them. And since our dogs are not used to eat the homemade dog foods at first, what we need to do is introduce it to them gradually. So, the next time they eat the foods they can identify it already and they will starting to love them.

The book has so much great information that I was not aware of I made the chicken casserole and the chicken jerky and my Huskies really love it. A true winner.

There are some nice recipes in this book but many are ones you would make each day. I was looking for something I could do in bulk. Overall it's a good book with good recipes. I would give it 5 stars but I doubt I'll use the book much.

It was a very useful book if you own a dog, well worth reading

Thank you for this organic recipe book to help my dog eat better. The recipes are great and easy to follow.

Wonderful!

If you're worried your dog is getting the right nutrition as much as I am, this book is great. You'll be sure of the quality of the food you're giving your pup. You'll learn everything you should avoid giving to your dog and why (surprisingly long list), as well as food that's really good for your dog, and how to combine it in recipes you can make in big batches. I recommended this as a great reference book!
