Customer Reviews

Typical, well produced area maps. Good legibility and content organization. In a world of GPS, many see little reason for paper maps. These are still beautiful and functional.

Helped immensely on my Maine trip. Rand has been making maps forever, and this is a great example of the quality if their maps. If you need a map of Maine, get this one.

Bought this map when we took our honeymoon to the state. We did not have a GPS yet, and we spent a couple weeks traveling around the state, pretty much exclusively with this map.

Very nice, would buy again.

A very good map and very easy to read.

Very useful and easy to read.

The map has been very helpful in helping me to plan a hiking trip to Acadia National Park.

It's a good map but some detail is missing.
