# Collins Pocket Map London

## Synopsis

This handy little full color map of central London is filled with a high level of detail and clear mapping from Regent's Park in the north to Kennington in the south, and Kensington Gardens in the west to Tower Bridge in the east at a scale of 1:12,500 (5 inches to 1 mile). Maps of West End shopping and theaters are also included. Clear, detailed, full color mapping is presented in a handy format, ideal for the pocket or handbag. It is excellent value and covers the most visited area of central London. It is an essential buy for tourists and residents alike, and includes a detailed central area map, a theaters and cinemas map, a shopping map, an Underground map, and the latest congestion zone boundary.

## Customer Reviews

HarperCollins UK is a leading information-led publisher of illustrated and narrative nonfiction.

If you're like me and like paper maps, this is a good one. It is very comprehensive in that it shows a lot of information but it is still pretty easy to find the things you will likely be looking for, and it gives a good, clear overview of London. For minute to minute navigation, I used google maps on my phone (which is very good at telling you where tube stops are and which trains to use and transfers to make), but I really liked this map for getting the big picture.

Got this for a gift for my dad, we are taking a trip to London next summer. I have no doubt that he will be looking at this map while everyone else is using the map on their phones

I gave it to clients to use on a trip. It had good information plus maps

VERY nice map. I've marked all the places etc. Highly recommended for anyone planning to go to London.

Loved this book! The type was large enough and the book small enough. We carried it around with us in London. The map was very useful.

Detailed and easy to find specific places.

Great little map! Paper with matte finished allowed me to write notes and circle locations. Small sized fit perfectly inside a jacket pocket. All city streets included, so it was really easy to use to navigate walking down streets.

With magnifying glass we are OK with the map.
