## Customer Reviews

Totally without any useful information. Generalities, like a school homework assignment where you feel the writer has to fill in words for the pretense of writing a book. A scam to get a few bucks, that's all this so-called "book" is. Type of mind-blowing advices: "lock your door at night" "don't open to stranger" My Gods it's lame.

I thought this little book had a lot of helpful tips. Well worth reading.

another DIY book for my collection
