## Customer Reviews

Let me say I love this book to death - it's got a good selection of pieces in terms of style and difficulty BUT: We can put a man on the moon but we can't make a piano book that will stay open on a music stand? I am constantly fighting with it to stay on the right page as I play. Mine had a small printing issue in the middle where it looks like they ran out of ink and didn't start printing in the same place or something which is no big deal but when the notes are way above or below the staff sometimes you can't tell what note it's supposed to be. So for those two reasons I have to give this 4 stars but I'd still definitely recommend it and I've already bought other books from the same publisher!

I purchased two of these. Both were defective with sheet music inside and barely and glue in the binding. All the pages were falling out. These were not authentic as I have purchased this book before

in a music store it seemed like a bad knock off

A great collection of Clementi and well worth the money. I am having a wonderful time exploring the entire book!

excellent

Intermediate to advanced level. A good basic book for anyone who likes the fast paced sonatinas and sonatas from Clementi.

Just what I was looking for

As described.

SATISFIED!
