Ultimate Guitar Play-Along Led Zeppelin, Vol 2: Authentic Guitar TAB, Book & 2 CDs (Ultimate Play-Along)

Synopsis

All new transcriptions and tracks drawn from more than 30 years of documentation, interviews, and recorded footage. These TABs and tracks deliver unprecedented accuracy and insight into the guitar-style of Jimmy Page. This book includes complete music notation and TAB transcriptions to eight Led Zeppelin classics. There are two versions of every song on the included CDs: an instrumental sound-alike recording, and an instrumental accompaniment track (without guitar) so you can play along. When you use the CDs in your Mac or Windows-based computer, the TNT (Tone 'N' Tempo) Changer lets you easily loop sections for practice, slow tracks down or speed them up without changing the pitch, change the key, and switch back and forth between full instrumental and accompaniment tracks. Titles: Stairway to Heaven * The Song Remains the Same * Over the Hills and Far Away * Trampled Under Foot * Kashmir * Achilles Last Stand * Nobody's Fault But Mine * All My Love.

If you have been waiting for a Zeppelin play-a-long book then this is the one for you. Great format with two separate Cd's first having the entire song and the second with the lead/main guitar parts taken out. If there is a negative it would be the song selections. It appears they went with the most popular songs you hear on the radio, and for me not the best Led Zeppelin songs. Songs like the Ocean, Houses of the Holy, and Ramble On were omitted. But with so many Zeppelin classic's to

choose from it must have been difficult to make the final cut. As far as the material the really caught the Zeppelin sound which should improve your ability as a guitar player if you play by ear, along with the tab material to help you through the tough spots. A must buy for any Zeppelin fan or Guitar Slinger.

I can play a few more of their songs now because I bought this book so thank you! Black Dog and Stairway to Heaven are my favorites.

I am still having fun with it, easy to understand and play along. Would recommend it to any Led Zeppelin fan, good selection of music also

Looks like a well written tab book. I'll have many hours of learning with this resource. So far everything seems very accurate.

The transcriptions are good, but the player is no longer compatible with Mac. In December 2012, I received a reply from Alfred Publishing stating, "We are aware of the incompatibility between our TnT Player and the newest Mac operating systems, and unfortunately an update has not yet been completed. While we work to develop a permanent fix for the incompatibility issue, we have found a few temporary options for you." They then suggested some alternate products that could be used after creating mp3s from their tracks. It's now 6 months later and no fix for Lion, which is a relatively old OS, so I wouldn't count on it.
