## Stone Rabbit #8: Robot Frenzy

## Synopsis

When Stone Rabbit and his friends create robots to help out with chores, a glitch in the programming sends the 'bots into a malfunctioning frenzy! Will our long-eared hero be able to shut down these mechanical maniacs before they destroy Happy Glades? Or will his systems crash? Robot Frenzy is the eighth book in a full-color series of riotous, rip-roaring graphic novels that chronicles the zany adventures of a quick-tempered and quick-witted young rabbit. Its fast pace and outrageously high visual content will appeal to thrill-seeking readers ages 7 to 10!

ERIK CRADDOCK grew up during the '80s and '90s on a steady diet of comics, video games, and pop culture. It was during his time as a student at New York City's School of Visual Arts that Stone Rabbit was born.

This is a funny book. And I get better price at .

Funny easy to read book young boys 6-9 enjoy reading. Stone Rabbit is a colorful comic book with bigger font.

"It was really good. Totally about Cheese and Broccoli. It was also good because of the evil Shark Robot float. Maybe ages 5 and up would like it." (according to my 7 year old son who read this book)

My eight year old grandson really likes these books
