We love this series for our history lessons for our home school. My youngest was having an issue concentrating enough to get the comprehension down. Now that we added the audio to let her listen to as she reads along we have noticed her absorbing more of the information. My older two never needed it. It shows that kids are all different :D

An excellent audio history series!

Great reading and homeschooling educational books. I would recommend them.

My children LOVE this series. We listen in the car while running errands. Sometimes we sit in the car a bit longer to get to a good stopping place :)

I just finished reading the book today in preparation for teaching my DD9. I learned so much about the different countries of the world and why they are & how they came to be. I had been taught other ideas on certain subjects, but learned the history behind events in a different way through this book. I look forward to teaching my DD about the last 150 years with this resource.

Great, short and easy. This book must be used with the Activity Book. Make sure to buy both together for a successful experience!

We've just begun this series of 4 books due to Classical Conversations homeschool curriculum. I have enjoyed teaching history, but my kids haven't quite caught the bug. This series has given them something to look forward to. Every day for homework they read a couple chapters and relate to me how much they like the stories; never a complaint.

This is a great series of books. Gives students (of all ages) a good overview of history.
