Rollin Smith's *Playing The Organ Works Of Cesar Franck* is the companion to his *Toward an Authentic Interpretation of the Organ Works of Cesar Franck*. Each of Franck's twelve major organ works is discussed in detail: the manuscript, the work's history and association with Franck and his circle, published editions, corrections to the 1959 Durand edition, and recorded performances. Technical problems are discussed and solutions provided. A glossary of terms found in Franck's organ works is provided with English translation. Frank's often confusing registration indications are translated and explained. Performances of each work is discussed in light of the information provided by Franck's own pupils, their students and contemporaries. *Playing The Organ Works Of Cesar Franck* is further enhanced by a bibliography of Franck literature published from 1983 to 1996. *Playing The Organ Works Of Cesar Franck* is a superb work of serious and articulate scholarship. --Midwest Book Review
