The Negotiator

Synopsis

Workaholic billionaire Sawyer Carlyle may have joked he needed a buffer from their marriage-obsessed mom, but he didn't need a waiting room filled with candidates to further distract him. (Thanks, bro.) But when a sexy job applicant shoos his mom and the socialite in tow out of his office, Sawyer sees the genius of the plan. And the woman. In fact, Miss Clover Lee might just get the fastest promotion in history, from buffer to fake fiancÃƒÆ'Ã©.... This free spirit might look like hot sunshine and lickable rainbows, but she negotiates like a pit bull. Before Sawyer knows what hit him, he's agreed to give up Friday nights for reality TV, his Saturdays for flea markets (why people buy junk still baffles him), his Tuesdays and Thursdays for date nights (AKA panty-losing opportunities if he plays his cards right). And now she wants lavender bath salts and tulips delivered every Monday? Yup, she's just screwing with him. Good thing she's got this non-negotiable six-weeks-and-she's-gone rule, or Sawyer may have just met his match.... Contains mature themes.

The Negotiator by Avery Flynn is the perfect title for this wonderful and funny book, but it doesnÃƒÆ'Ã¢â„¢t describe what you might expect. What turns out to be a brotherly prank turns into lots of fun, new experiences, and lots and lots of negotiations. Sawyer Carlyle is a big picture person. DonÃƒÆ'Ã¢â„¢t give him the little details. He has a plan and he sticks to it. When his mother keeps parading high society women as potential wives for Sawyer he decides enough is enough. He needed a buffer to get his mother to stop. Enter Jane Clover Lee, temporary

worker and world explorer. Clover decided early in life she didn't want the life her mother has, giving up her desires to keep the peace with her father. Instead of settling Clover works only long enough to support her next adventure. Working as a buffer was a natural fit for Clover. She wasn't so sure about the fake fiancé part. Sawyer and Clover butt heads over negotiations to make this charade successful but neither thought about the consequences of rewriting the expectations or fulfilling their roles in this farce. I really enjoyed reading this book despite never figuring out who is really the better negotiator. Ms. Flynn did an excellent job keeping me interested in this story so that I had trouble putting it down. I highly recommend this outstanding book to other readers. I voluntarily reviewed a complimentary copy of this book.

What a great read this is. As a personal buffer Clover Lee applies for the position because she always is looking for the craziest and short term jobs, where Sawyer Carlyle who the buffer is for but did not put the ad out. These two have chemistry are great together who expects that a fake job will turn into a fake job but can it turn into real love. Avery Flynn again makes you want more with great character and a great story. Sawyer and Clover are quirky and great story.

5 Crazy Ass Must Read Stars!!!!!! This is my first Avery Flynn read and I just have to ask, "Why have you been hiding from this Book Whore?" Seriously, book community is not terribly big and I've come across a lot names but never have with Avery Flynn. I wished I had sooner because I love new-to-me authors. Especially ones that are able to captivate and wow me like Avery did with this story. This was funny, steamy, swoon-worthy, sexy, sweet, and more. I really enjoyed Sawyer and Clover's story. I was drawn in right away and didn't stop until I couldn't swipe any more. I am so looking forward to Hudson's book. I hope I don't have to wait too long. This book whore will have to go on a stalking expedition to see what else Avery Flynn has out that will tickle my fancy.

This is easily a 5+ star book. What happens when negotiate a little deception and then emotions get tangled into it? Sawyer kind of seems like a jerk, Clover thinks life is about living one big adventure after another find out when the two negotiate a fake a 6 week long engagement. I absolutely loved this book. Yes I recommend it to this to everyone.

A new plot concept to an old theme that I've read most recently and this one was good. Sawyer and Clover destiny was arranged by his brother Hudson with Clover being a buffer for the workaholic, Sawyer. A buffer was needed to intervene with his mother desires for Sawyer to settle down. Clover

character was a little erratic and left to be desired at times. The relationship buildup was slow but cute considering their escapade. I enjoyed the book but would love to read about Hudson.

A light hearted comedy.Sawyer Carlyle hired himself a personal buffer for a match maker interfering mother.Enters Clover Lee,a force to be dealt with the only intentions to save money for her next adventure.She gets fastest promotion to become Sawyer fiancÃƒÂ©.They end up spending a lot of time together,making him appreciate the little things in life.Everything is not about business and deals.and being "teammates".Sometimes you just have to hear those three little words.

It was a good read, I'd have finished it in one day/night if it weren't for that pesky work thing. I didn't get the "snarly" vibe from him, he was way too much of a pushover controlled by his penis, which is sad because I really love strong personalities and there were times when I thought he was going to be Linus Larabee! This is the only thing I was willing to take a star off for, as the rest of the story was good and it left me satisfied.

Love is not even a strong enough word for this book! Before I was even through with the first chapter, I had gasped and slapped my hands to my face in the infamous Home Alone pose! My husband, who was attempting to sleep next to me jumped up and asked quickly, "What's wrong?" I just laughed and said, "This BOOK!! I can't believe she just did that!!" I then apologized for waking him but he responded with, "It's okay, it must be good. Read it to me." ????? Okayyyyy.... Needless to say, I just couldn't get enough. I was addicted clean through to the end, and I'm having major Sawyer/Clover withdrawals since I finished last night. I definitely recommend this book!! FIVE STARS all the way!!
