Customer Reviews

Well, it looks like my own apprentice notes, blown up and stuffed in a pretty cover. I was hoping for a pro-manual to decorate the shop shelf and add to my skills. This is more for a beginner in the shop, and the pictures are blurry (enlarged poorly). Steps are glossed over, so without a mentor or some shop skills already, you're on your own again.

Once you get past the poor photography the data contained might be usable.

Got the information needed for a leaky saxophone

This book is a MUST have for anyone interested in overhauling one of these instruments! The photos are fantastic and it is very easy to follow. 2 thumbs up!

Hard to read.

Very good book! And in great shape
