Homemade Repellents: Your Complete Guide To Over 30 Natural, Non-Toxic Homemade Repellents For Mosquitoes, Ants, Flies, Roaches, And Common Pests

Synopsis

Eliminate Common Pests By Making Non-Toxic, Homemade Repellents Without the Use of Harmful Chemicals Starting Today

Regardless of where we live, we are all prone to experiencing unwanted visitors in our homes—those pests that can wreak havoc on our environments, our nerves, and also our health. This is a serious problem and while there may be a few situations where you have to call in pest control experts (termites for example), a majority of pests that you may experience in your home or when you're trying to enjoy the great outdoors can be controlled and managed by you, with a homemade and organic remedy. In this book you're going to get so much great information on how you can take a stand for your health and say goodbye to chemicals to treat those pesky little critters that can impact you so much. Mosquitoes can stay at bay. Ants, flies, and roaches do not have to ruin your picnic—whether it's on your kitchen counter or out at the park. And those other pests that may be tempted to pay you a visit—well, in this book you'll learn the ways to give them a “STOP sign” that they cannot ignore.
