Awesome Vietnamese recipes! This is the only cook book I like to much that I actually brought it in the bedroom to read before bedtime. I am Vietnamese but doesn't know how to cook Vietnamese dishes right as my family pampered me so bad that I didn't have to cook anything until I got married. I kept wondering why the Vietnamese dishes never tasted right so I got this book. It taught me the correct technique, or even correct order of steps to make the food taste just right. The recipes were very very easy to understand and follow. This is really worth recommending!

They do make this a very easy to follow book. I never realized just how simple these dishes really were. Some of the more specific ingredients were a little challenging to find in my area but not impossible. I usually just stick with the pho when I go out just because the stuff is so addicting and delicious. These other recipes however are really great.

I do think that the book gave interesting Vietnamese recipes that are simple and easy to prepare. The author did a great job in listing some delicious meals that you will surely enjoy.

I love PHO! So I was extremely excited to come across this book and entertain the potential of making my own at home. I've now experimented with two of the recipes, and they were fantastic. Which I assure you, has nothing to do with my cooking skills, and everything to do with the authors well laid-out ingredient lists and instructions. Only reason for a 4 is that I like cookbooks with images.
